Safety Village"*

KETTERING SAFETY VILLAGE 2012

The members of the **Dor-Wood Optimist Club** founded the Kettering Safety Village in 1966 and continue with their outstanding sponsorship to the safety of children. The **City of Kettering's Engineering Department Safety Section** is proud to operate the mini-camp along with the Kettering City School system.

Through **fun and exciting hands-on experience**, children will learn about traffic signs and signals, seat belt safety, safety patrols, school bus safety, animal safety, personal safety, fire safety, water safety and poison safety. The City's Safety Supervisors, Police and Fire personnel teach the class lessons and are assisted by local student volunteers. Safety Village consists of scaled down streets, buildings and intersections constructed at one of the City of Kettering's elementary schools. Safety professionals believe that practicing safety skills is an important step in helping your child understand and feel comfortable with traveling to and from school.

The program is developed for children of **ages 5 to 6** years old.

On-line registration at <www.ketteringoh.org> will open March 2, 2012.
Click on: Register for a Class or Program, then click Register for Classes On Line
